## Projects

**Alarmio: Daily Essentials App, COGS 120: Interaction Design; UCSD**

Jan - Mar 2019

- Worked in a group of 3 to design an alarm app with features such as weather and routes, so users could have all their daily essential information all in one place right when they wake up
- Went through the design process of needfinding and storyboarding, created paper prototypes and digital wireframes, conducted user testing in person and utilized Google Analytics for A/B testing
- Used HTML, CSS, and JavaScript to make our app fully functional, so users could add new alarms, new locations to check the weather, and start & end locations for their routes (Link: [a10-alarmio.herokuapp.com](http://a10-alarmio.herokuapp.com))

**UC San Diego App: Dining Section, DSGN 1: Design of Everyday Things; UCSD**

Nov - Dec 2018

- Worked in a group of 6 to redesign the dining section of the UCSD app using Marvel to create an interactive prototype and to connect the workflow of the app (Link: [marvelapp.com/fgb2da9](http://marvelapp.com/fgb2da9))
- Conducted user interviews with a random sample of 18 adults, applying the master-apprentice model
- Created prototypes including sketches, storyboards, and wireframes on physical and digital platforms

**Medical Reminder App, COGS 187A: Usability & Information Architecture; UCSD**

Aug - Sept 2018

- Worked in a group of 6 to design a medical reminder app with an elderly friendly interface (large text, high contrast) using Marvel's collaborative design platform (Link: [marvelapp.com/4gbje43](http://marvelapp.com/4gbje43))
- Created personas and storyboards before producing prototypes through iterative processes and conducted user testing at various stages to gather feedback to improve our app
- Documented our 5 week process by writing weekly Medium posts on our shared group account
